February 27th, 2012

To: Marlene H. Dortch, Secretary

Federal Communications Commission 445 12th St. SW, Washington, DC 20554

Reference: LightSquared Subsidiary, LLC

Ex Parte Communication. IB Docket No. 11-109 IBSF File No. SAT-MOD-20101118-00239

The FCC should reject the petition. GPS should not be ruled ineligible for protections from interference in adjacent satellite spectrum. Title 47, CFR 25.255 is explicit in protections against interference of the type that would come about by such ATC plans.

At this time there are no prohibitions on GPS users utilizing their equipment in the manner that they have been doing, and there were no restrictions to the design and manufacture of these receivers. In the absence of any such restrictions, the end users of GPS have acted lawfully, and in good faith and therefore should be entitled to protections until such time as specific regulations or legislation state otherwise.

Respectfully,

Gavin Schrock, PLS GPS user, citizen, and taxpayer 2710 NE 105th Street Seattle WA 98125
